

### REMARKS

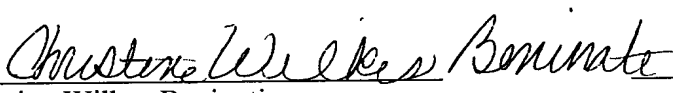

By the Amendment herewith, Applicant improves upon the wording of independent claim 1 to recite consistent "means for" steps and also changes "arranged to" to - -configured to- -. Similarly, independent claim 19 is amended to improve upon the wording to recite "a controller configured for controlling a transmitter ..."

No new matter is introduced into the application as a result of the foregoing changes. Moreover, it is respectfully asserted that the above changes are not made for reasons related to patentability and the full range of equivalents should remain in tact.

The above amendments improve upon the wording of the claims and require no additional search or examination by the Examiner. Additionally, all pending claims remain patentable for the reasons set forth in Applicant's prior response.

In view of the foregoing, the Examiner is respectfully requested to enter and consider the amendments and remarks set forth herein.

Respectfully submitted:
